  - a. Presentation from First Professional Services Regarding Ambulance Services and Billing

Chief Becraft reintroduced First Professional Services to the Board of Trustees. He then turned the time over to First Professional Services.

Dart and Kody McGregor took turns addressing the board. It was stated that over the past year First Professional Services has held numerous meetings with North Davis Fire District staff to provide consulting and advising, planning, etc. Holding quarterly meetings with their departments allows everyone to monitor call ambulance service and billing and collection trends. First Professional Services strives to be proactive, not reactive.

Dart then informed the board that, on average, 48%-52% of all 911 calls are actually transported. In some cases, EMS will respond and assess the patient, and if they recommend that the patient needs further assessment or treatment, the patient will opt to go via their personal vehicle.

The board was informed that as of December, ambulance revenue collections are lower than initially predicted for Fiscal Year 2024. It was then stated that this was a similar situation for

all EMS departments, and NDFD was not alone. Dart educated the board about ambulance billing allowances and the collection process. The State of Utah sets a base rate for ambulance service billing and mileage. The department can determine disposable supply charges. However, Medicaid and Medicare will only pay a set minimal amount, no matter how many supplies or services are rendered. Insurance companies only pay allowable charges; lately, some insurance companies have denied payment for disposable supplies. It was then stated that more people are electing to participate in High Deductible Health Plans, and when EMS services are provided, the patient is left to pay a large amount of the bill. In most cases, patients need to be set up on a payment arrangement, and it can take years to fully collect payment for the service provided (the VA takes nearly 9 months to pay for service).

In 2023, NDFD interfacility transports have decreased by approximately 361. This is due to the people living in facilities that need to be transported by ambulance to doctors and treatment appointments regularly. However, since First Professional Services began billing and collecting for NDFD, charges are up nearly \$688,000 from the prior year. For example, charges per transport in 2023 are \$2,145; in 2021, the per transport cost was \$1604; and in 2022, charges were \$1,383.

Board Member G. Petersen recommended separating interfacility transport numbers from regular transports. Ms. Rogers stated that future budgeting will separate interfacility transports from the estimated ambulance revenue for the budget year. Chair N. Peterson noted that the interfacility transports should be treated as one-time money and not used to estimate annual revenue. Board Member G. Peterson agreed.

Dart and Kody McGregor reassured the board that First Professional Services is and will continue to work with State Chiefs, numerous other agencies, and the State Legislature to find a solution for the current billing and collection issues that all departments face.

- b. Discussion of the North Davis Fire District Board of Trustee Meeting Schedule for Calendar Year 2024.

Ms. Rogers asked if any board members had concerns about the drafted meeting schedule for the Calendar Year 2024. No concerns were presented to the board. Ms. Rogers asked that the board approve the Calendar Year 2024 meeting schedule during the regular meeting.

Chair N. Peterson motioned to move to the regular meeting.
